

PRE-PROCEDURE INSTRUCTIONS

General

- If you are pregnant or nursing, you are not a candidate for permanent makeup
- If you are on prescription blood thinners, you must consult your doctor prior to receiving permanent makeup
- No Aspirin, baby Aspirin, Advil, Aleve, fish oils or other over-the-counter medications known to thin the blood for two weeks prior
- Avoid alcohol for 24 hours before the procedure
- No Accutane use within the last 12 months
- Do not tan directly or indirectly for one month prior
- If you have any health concerns, consult with your physician
- Diabetics and smokers may not be good candidates for permanent makeup

Eyebrows

- No Botox for a minimum of two months prior to the procedure
- Do not wax or thread brows for at least one week before, and do not have them tinted for a minimum of two weeks prior
- Avoid Retin A and Retinols for two weeks prior
- If your skin is oily or you have larger pores, you may not be a good candidate for microblading

Eyeliner

- Discontinue Latisse or any lash enhancement products for one month beforehand
- No eyelash extensions for at least two weeks prior
- Do not wear contact lenses to the procedure; bring your glasses
- If you have any eye health issues, you must consult your physician and bring a written consent to the appointment
- If you've had any eye issues or eye surgery including lasik, consult with your physician
- Discard old mascara and purchase new. Wash all eye makeup brushes

Lips

- No lip injections for four months beforehand
- Contact us immediately if you've ever had a cold sore
